OBJECTIVE

Aspiring Full-Stack Developer with a strong foundation in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a keen interest in web security and scalable application design. Possess hands-on experience in developing real-world projects including social media and employee management systems. Seeking a challenging and growth-oriented role in a dynamic organization where I can contribute to building modern, efficient, and secure web solutions while continuously learning and growing as a developer.

EDUCATION

Bachelor of Computer Science, Institute of Technology and Management University 2023 - 2026

SKILLS

Technical Skills	Html , Css, Python, Java, JavaScript, React js, Node js, Django, Mysql, Mongoddb
Soft Skills	Team Collaboration, Problem-Solving, Critical Thinking, Time Management, Self-Motivation

TRAINING

Cyber Security Training	Jul 2024 - Dec 2024
DROP Organization	<i>Mode: Virtual(Online)</i>

For successfully completing all the requirements & criteria of web Application penetration testing for said certification through examination administered by DROP Organization

Industry-Ready Internship Program	Jun 2025 - Aug 2025
ITM University	<i>Gwalior, Madhaya Pradesh</i>

A comprehensive program designed to enhance technical proficiency in **DSA, MySQL, MongoDB** along with critical **Soft Skills** such as communication, teamwork, and professional attitude, essential for success in IT industry roles.

PROJECTS

Employee Management System. Designed and developed a full-stack **Employee Management System** using **React.js, Node.js, Express.js, MongoDB, and Tailwind CSS** to handle employee data, authentication, and task management seamlessly.

Social Media App. Built a **full-stack social media app** using MERN stack and Tailwind CSS. Features include user authentication (JWT), post creation, likes, comments, follow/unfollow, real-time chat (Socket.IO), and image uploads via Cloudinary.

CERTIFICATE

The Joy of Computing using Python (Elite)	Issued by: NPTEL (IIT Madras) — <i>Completed:</i> May 2025
--	---

Completed a 12-week course covering Python programming, problem-solving, algorithmic thinking, and basic computing concepts with hands-on coding assignments.

Solutions Architecture Job Simulation	Issued by: Forage — <i>Completed:</i> June 2025
--	--

Solutions Architecture Design, Cloud Infrastructure, Scalable System Planning, System Design Principles

Introduction to Artificial Intelligence	Issued by: Infosys — <i>Completed:</i> June 2025
--	---

Successfully completed a comprehensive course on Artificial Intelligence covering key concepts such as machine learning, data processing, intelligent systems, and practical AI applications. Gained foundational knowledge to apply AI principles in real-world scenarios.
