Summary

- Aspiring Software Developer with hands-on experience in building scalable web applications using the MERN stack.
- Familiar with Data Structures, Object-Oriented Programming, and backend development with practical project experience.
- Developed real-world applications including real-time chat systems and AI-based platforms.
- Eager to learn and contribute as an entry-level Software Developer.

EDUCATION

ITM University, Gwalior

Bachelor of Computer Application

2023 - 2026

Gwalior, Madhya Pradesh

TECHNICAL SKILLS

Languages: JavaScript, Python, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask, REST APIs, API Integration

Databases: MongoDB, MySQL, PostgreSQL, SQL

Tools: Git, Postman, Docker, Socket.io

Core Concepts: Data Structures, Object-Oriented Programming, REST APIs, API Integration, AI Applications

PROJECTS

AI-Powered Video Dubbing SaaS (Locaa AI) — *Python, JavaScript, React, Flask, PostgreSQL* **Sept–Oct 2025**

- * Built a complete video processing platform where users upload videos and our AI automatically creates short clips, adds subtitles in multiple languages, and publishes to YouTube, TikTok, Instagram, and Facebook.
- * Wrote Python code using Flask to handle user requests, manage logins with JWT tokens, store data in PostgreSQL database, and process videos in background using Celery task queue.
- * Created interactive UI with React and Vite that shows a simple 4-step wizard for users to upload videos and configure their settings. Mobile-friendly design with smooth animations.
- * Users can create accounts, subscribe to plans, see real-time job status, view analytics showing engagement and performance metrics, and download all their generated clips.

Real-Time Chat Application — *React, Node.js, Express, MongoDB, Socket.io*

July–Aug 2025

- * Built a WhatsApp-like real-time chat application with one-to-one messaging functionality.
- * Implemented JWT-based authentication for secure login and signup.
- * Added real-time features including typing indicator, online/offline status, and message tracking.
- * Designed responsive UI and optimized backend for efficient real-time performance.

EXPERIENCE

AI Contractor — Turing

Apr 2026 – Jul 2026

AI Data Associate

(Remote)

- * Executed real-world tasks and collected data to support AI model training pipelines
- * Ensured high data quality, accuracy, and consistency across structured workflows
- * Collaborated with AI teams to improve data processes and maintained detailed logs

Software Development Intern — TecnovaCore

May 2025 – Jul 2025

Full Stack Developer Intern

(Gwalior, Madhya Pradesh)

- * Assisted in backend development and structured data handling for web applications
- * Debugged issues and improved system performance and data flow
- * Optimized application functionality to ensure efficient processing

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations
- Introduction to Artificial Intelligence – Infosys (Springboard)
- Introduction to Cybersecurity – Cisco Networking Academy
- The Joy of Computing Using Python (Elite) - NPTEL
- Full Stack Development – Infosys Springboard

SOFT SKILLS

Problem Solving, Analytical Thinking, Communication, Team Collaboration, Adaptability, Time Management
